

# Weekend Getaway

Level: B1 Topic: Travel

Last month, I went on a weekend getaway to the countryside with my friends. We rented a small cabin near a lake. The journey took about two hours by car, but it was worth it. The cabin was cozy and surrounded by beautiful trees. We spent our days hiking and exploring the area. One day, we went fishing in the lake, and I caught a big trout! In the evenings, we cooked meals together and shared stories around the campfire. The stars were bright at night, and we even saw a shooting star. I loved the peaceful atmosphere and being away from the city. It was a perfect escape from our busy lives. On the last day, we took a lot of pictures to remember our trip. I hope to go back again soon.

## Questions
